

WIRELESS NURSE CALL SYSTEM

RECEIVER

Connects calling units to nurse call software ensuring consisted signal in the system. It transfers radio signal into readable data on the software.

TECHNICAL SPECIFICATIONS:

Weight	262 gr
Width	130 mm
Height	153 mm
Depth	58 mm
Operating Temperature	-10°C / +50°C
Operating Humidity	%30 / %80 RH
Material	ABS, Plastic
Color	White
Power Supply	Powered by PC
Processor	Microcontroller
Communication	Wireless
Range	150 Meters (open space 200 meters)
Communication	RS-232 with Computer
Wireless Frequency	433 MHz
