

WIRELESS NURSE CALL SYSTEM

WARNING LAMP

Warning lamp can be placed at room's over-door, bedhead trunking, hallways or nursing central desk. It provides visual and audible indication of calls helping the staff locate the room in an efficient way. It has four colors with steady or flashing illumination reflecting different room alarm status.

TECHNICAL SPECIFICATIONS:

Weight	140 gr
Width	85 mm
Height	85 mm
Depth	38 mm
Operating Temperature	-10°C / +50°C
Operating Humidity	%30 / %80 RH
Material	ABS, Plastic
Color	White
Power Voltage	110-240 VAC
Power (Watt)	0.06 W
Processor	Microcontroller
Communication	Wireless
Buzzer Speaker	Yes
Number of Calling Units	Up to 32
Range	150 Meters (open space 200 meters)
Lamp Color	Red, Green, Pink, Blue
Lighting	LED
Wireless Frequency	433 MHz
